THRU : Chief, D/S  
Chief, S/TR

Pipeline Transport Requirements

1. This is a supplemental request for requirements on Pipeline Transport to be included until further notice in S/TR standing requirements with the OMR Reading Panel.
2. These requirements now reflect S/TR's direct interest in pipeline as a mode of transport throughout the Sino-Soviet Bloc.
3. The geographic area coverage will remain the same as outlined in our requirements memorandum dated 21 July 1955 for rail, highway, air and water transport intelligence.
4. Attached are thirty copies of S/TR substantive requirements for pipeline transport.
5. This memo will further serve to conform with instructions as outlined in a directive from Chief, ERA dated 27 April 1955 calling for the establishment of a systematic procedure for periodic review of Branch requirements to the OMR Reading Panel. The requirements as written 21 July 1955 are still in effect as of this date.
